## 1. Accessibility Plan 2020 - 2023

At St Andrew's we want all students to enjoy and participate fully in school. We want them to be challenged to achieve their very best, and to consider their time at the school as their own 'learning adventure'. We are committed to giving all of our students every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter.

## 2. Purpose of Plan

This plan shows how St Andrew's School intends, over time, to increase the accessibility of our school for disabled pupils, staff, parents/carers and visitors.

## 3. Definition of disability

A person has a disability if he/she has a physical or mental impairment that has a substantial and long-term adverse effect on his/her ability to carry out normal day to-day activities.

## 4. Areas of planning responsibilities

- Increasing access for disabled pupils to the school curriculum, (this includes teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits)
- Improving access to the physical environment of schools, (this includes improvements to the physical environment of the school and physical aids to access education)
- Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils). The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe

## 5. Contextual Information

- St Andrew's is mainly a traditional 1950's building but recently it has had significant extension work which meets current accessibility guidelines. The school has 3 lifts ensuring all areas of the school are wheelchair friendly.
- At present, we have no wheelchair dependent pupils, parents or members of staff.

## 6. Current Range of known disabilities

- The school has children with a range of disabilities to include moderate and specific learning disabilities.
- We have a small number of pupils and parents who have a hearing impairment.

## 7. Increasing access for disabled pupils to the school curriculum.

- Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes.

- It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have had full access to attend age relevant after school clubs, leisure and cultural activities and educational visits. The only exception would occur if a child had breached school rules when deprivation of club attendance may be used as a suitable short-term sanction and to ensure the safety of others.

The ICT area and Arts Area have appropriate Disabled Access point but the 'older' part of the school is not appropriate. Investigations in place to ensure stairs have appropriate facilities for safe escape.	LA  Site Manager	All disabled staff, pupils and visitors able to have safe independent egress

## 9. Improving the delivery of written information to disabled pupils

- This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts, textbooks and information about school events. The information should take account of pupils' disabilities and pupils' and parents' preferred formats and be made available within a reasonable timeframe.
- In planning to make written information available to disabled pupils we again need to establish the current level of need and be able to respond to changes in the range of need. The school will need to identify agencies and sources of such materials to be able to make the provision when required.
- The school's ICT infrastructure will enable us to access a range of materials supportive to need.
